Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, 16, 41-43, drawn to a nucleic acid, vectors comprising the nucleic acid, a method of using it to produce a protein, and a plant, bacterium, virus or fungus comprising it.

Group II, claim(s) 15, 21-40, and 44-48, drawn to a polypeptide with insecticidal activity, a composition comprising it and a method of using it to combat pests.

Group III, claim(s) 17-18, drawn to a ligand.

Group IV, claim(s) 19-20, drawn to probes and primers.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: They fail to share a special technical feature.

The technical feature linking the groups is a nucleic acid encoding an insecticidal protein complex or a portion of it. This technical feature is taught by Grkovic et al (1995, Appl. Environ. Microbiol. 61:2218-2223; cited in the search report; see abstract), Nunez-Valdez et al (1996, Gen 172:75-79; cited in the search report; see abstract) and Bowen et al (1998, Science 280:2129-2132; see abstract). The nucleic acids taught by Grkovic et al, Nunez-Valdez et al and Bowen et al would each have 75% "homology" with SEQ ID NO:1 and would hybridize to it

Art Unit: 1638

under stringent hybridization conditions; thus, claim 1, among others is not novel, and the technical feature linking the groups is not special.

Applicant is advised that for the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
